

To All Market Stakeholders

**FUTURE OF THE MARKETS PROJECT
SECOND UPDATE**

The Future of the Markets Project which will analyse the current operation and future needs of Sydney Markets, continues to progress.

Following a call for proposals which closed on Monday 16 May 2016, organisations for the Project are being assessed and will be shortlisted.

The next step will be for the shortlisted organisations to formally present their proposals to the Master Plan Committee for consideration prior to a recommendation to the Board.

SML will keep Market stakeholders updated as this project continues to progress.
